FIELD CHECKLIST OF ALABAMA BIRDS

ALABAMA ORNITHOLOGICAL SOCIETY

Date: _____ Time: _____

Locality: _____

Observers: _____

Weather: _____ Total Species: _____

This field card is based on the decisions of the Bird Records Committee of the Alabama Ornithological Society as of September 2020. Sightings of species boldfaced or listed as "Category B" (formerly "Hypothetical") should be reported with full written details (a Rare Bird Report, for example). Italicized species often need written details, but these may be brief, listing only the diagnostic points used in the identification. Out-of-season and locally rare birds also should be documented. Reports should be submitted to Greg D. Jackson, 2220 Baneberry Drive, Birmingham, AL 35244, g_d_jackson@bellsouth.net.

Species marked as "N" are known to have attempted nesting in the state. Those listed as "Category B" have sightings with acceptable documentation, but are not validated by physical evidence (e.g. specimens or photographs) or have not been verified by several experienced observers. Taxonomy follows the seventh edition of the A.O.S. *Check-list of North American Birds* (through the 61st Supplement, June 2020).

Copies of this field card and additional information may be obtained from the Alabama Ornithological Society website at www.aosbirds.org or by email at Treasurer@aosbirds.org.

Category "B" Species

Garganey
Swift, Vaux's
Mountain-gem, Blue-throated
Crane, Whooping
Woodcock, Eurasian
Tern, Roseate
Tern, Arctic
Hawk, Ferruginous
Vireo, Plumbeous
Towhee, Spotted
Grackle, Great-tailed
Warbler, Kirtland's
Warbler, Townsend's

Extirpated Species

Woodpecker, Ivory-billed N

Extinct Species

Pigeon, Passenger
Parakeet, Carolina
Warbler, Bachman's N

Total Species: 449
